

ARI GUNZBURG

AV REQUIREMENTS

Ari will review the space upon arrival and adapt to your available tech and set up as much as possible. For smaller groups a mic may not be required; if no mic is planned, please confirm.

Ari presents from his own Apple silicon MacBook Pro, which supports up to two HDMI outputs, for slides and presenter notes, if a confidence monitor is available.

Required:

- Wireless lavalier or headset mic is preferred; hand held wireless mic works if necessary
- HD Projector/screen or TV to display slides and short videos
- Audio connection from Ari's laptop (for in-presentation sound)
- Confidence monitor for presenter notes if available (via separate HDMI); if not available, Ari will present from his laptop near the speaking area, using it as a confidence monitor
- Adequate room lighting for visibility or mood
- AV tech or operator onsite during setup and ideally during the session
- 2 bottles of water

Preferred:

- Room set for high energy, i.e. no barriers, no podium or podium on the side
- If using tables, please set in cabaret or classroom style if possible
- Ari prefers a stage
- Event photography or video welcome, please credit and share footage/photos with Ari
- Backup clicker and mic batteries available onsite
- Small table or area near the stage to place giveaway t-shirts

Provided by Ari:

- Laptop with slides and videos
- Clicker for slide advancement
- Slide deck and media files available in advance or after, if requested
- Small props (if used, brought by Ari)
- T-shirts for select audience members (most speeches)

Please contact Ari or your bureau representative with any questions.
